## Part A: Pupil premium strategy plan- Statement of intent

*What are your ultimate objectives for your disadvantaged pupils? · How does your current pupil premium strategy plan work towards achieving those objectives? · What are the key principles of your strategy plan?*

- Maybury Primary School is committed to inclusion and to removing any potential barriers (physical or otherwise) to learning and participation. We provide a broad and balanced curriculum for all pupils and respond to pupils' diverse learning needs. We believe in equality of opportunity and we aim to create a supportive yet challenging environment that values difference and recognises the achievements of all children.
- SDP target - 1.To enhance the teaching and learning of writing so that it positively impacts pupil outcomes across the curriculum.
  - Our key objective is for our disadvantaged children to match or exceed national averages in Reading, Writing and Maths by the end of KS1 and KS2 and for their progress rating to be at least 0 (expected)
  - We want our disadvantaged children to learn the skills to become resilient, lifelong learners.
  - We intend for our children to have a depth of social and academic experiences.
  - Our current pupil premium strategy plan works towards achieving our objectives by strategically using our resources to develop CPD, put targeted intervention in place and provide enrichment experiences for our disadvantaged children.
  - Our key principles are to provide quality first teaching for all children, adaptive teaching and learning approaches and targeted intervention with additional support where needed. This support includes working closely with our families and the local community.
  - Personal development, behaviour and welfare at our school is outstanding but in a constantly evolving world, it is vital we continue to ensure our policies and practices continue to meet the needs of our children and community. This is central to our culture and links with two key aims - equality and inclusion that underpin our school values and ethos.

## Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1.	We have an extremely complex school population, with a number of children from vulnerable groups who need additional support. We have a number of pupils with multiple barriers to learning for example SEND and EAL which are both significantly higher than National averages.
2.	Writing has been identified as target area across the school to ensure consistency of approach and to enable children to make good progress. This is supported by high quality phonics teaching and a focus on language enrichment.
3.	Increasing number of children with complex specialist needs who require specialist approaches who are joining the school at the early years stage. Additionally, a number of these children have transferred to the main school and are awaiting specialist

	placements. They require a highly specialised approach and teaching, with high staff/pupil ratios.
4.	77% of our children have English as an additional language, which presents many challenges. We have identified that they need additional exposure to vocabulary in order to meet their potential across the curriculum
5.	Our disadvantaged children begin at our school with very low starting points and often have limited life experiences. This can be a challenge across the school, particularly where they join higher up the school.
6.	We have identified that whilst our children make good progress in decoding reading, their comprehension skills take longer to develop and require intervention. This is also linked to language skills.
7.	As a result of reduced access to experiences, our children do not always make the connection between learning that we would expect and require enrichment activities to be provided to extend their cultural capital
8.	Our families often have English as an additional language and/or low literacy skills and can struggle to access resources and support and to support curriculum learning at home
9.	Our families often lack the technology to access online resources.
10.	We have identified that a number of our pupils need additional support for mental health and well-being to develop their resilience.
11.	We have identified that a number of our pupils, especially in the early years, lack the independence skills and confidence they require for school readiness and that this is an area where we need to extend support to parents.

### Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.
